

Family ArtFest is designed as an open “studio” event where families come at any time during the Fest hours (typically two hours) and explore the various art stations at their own pace. Descriptions of the art concepts involved with each project will be posted at the stations. To add to the festivities, Let’s Gogh Art provides music, a collaborative project (to be displayed within the building), art at home hand-outs, and hard hat painting. We also set up a “Play and Display Art” table with various types of art frames, art supplies and kits for purchase. To help promote the event we supply flyer masters, poster and online registration.

The Let’s Gogh Art team sets up the stations with all of the necessary supplies and projects whatever space you choose (cafeterias and gyms with tables work the best). We also supervise the event and manage the clean-up. We suggest that you have a few volunteers to help manage the various stations and to socialize and mingle with the families. This is a great opportunity to promote the PTO directors and/or art teacher(s), as well as other school staff.
