

## UNIQUE TEAMBUILDING ART ACTIVITIES TO INSPIRE CREATIVITY AND COLLABORATION

Your group can enjoy a collaborative activity as the "main event", or the group can do a shorter collaborative project, and then everyone will be led step-by-step through an individual painting on a 3x4" (with easel), 11x14" or 16x20" canvas. The choice is yours. We'll supply the artist, guidance and the inspiration...you bring the team.

- **Team canvases.** Prior to creating, team members write down each member's strengths and select a representative color for that team. They also identify what they do to keep themselves happy in words and pictures. The strength colors serve as the background upon which the photos and words are added. Alternatively, each team is asked to have a discussion about what they want to paint and how the subject of the painting will relate to the company. This activity can be done in collaboration or with individual canvas paintings.
- **Read it, Tell it, Make it** (all about communication, collaboration and interpretation). Each team is given a subject and then they must work together to create it on canvas.
- **Doodle art.** Each team member practices their favorite doodles and then they come together to discuss how to bring them together on a canvas.
- **3-D artworks.** Each team member is asked to bring in specific items (i.e. rose tinted glasses, client photos, team photos, logos, etc.) that remind them of the company. Each team brainstorms on what makes the company and the culture unique, special or fun. Each team member gives a quick explanation of what they brought and what it symbolizes. The team then assembles a 3-D collage.
- **Masterpiece puzzle.** A group activity that involves the painting of large jigsaw puzzle pieces and assembly.
- **3-D canvas cocktail.** A collaborative canvas using 3-D materials to express company vision, concept, theme or value). This activity can be done in collaboration with individual canvas paintings.
- **Marshmallow tower.** Teams of four are given 20 minutes to create the tallest possible freestanding structure using spaghetti, tape, string and one marshmallow. (Oh, and the marshmallow has to be on the top). This activity can be done in collaboration with individual canvas paintings.
- **Team portraits.** In teams of (4) people, teams pair off and do portrait sketches of each other. The team of (4) come back together and create a background to paint (choosing, colors, themes, etc). Once the background is complete, the portraits are mounted to the painting. At the end, all teams come together and try to match portrait paintings to the teams. This workshop can be done without the painting and individual canvases can be painted.
